EXPERIENCE

Web Developer Intern

DigitalBuddha Info Solutions LLP

Jul 2025 — Present

Kannur

- Collaborated with team members to implement new features and improve user experience
- Enhanced UI responsiveness by refining layouts and styles, improving cross-device usability
- Supported feature development by collaborating with the team, contributing to timely project delivery

Web Developer Intern

Innobyte Services

Aug 2024 — Sep 2024

Delhi(remote)

- Delivered a fully functional website by translating requirements into responsive web pages, ensuring smooth user experience
- Ensured cross-browser compatibility by testing and fixing UI issues, resulting in consistent performance.

PROJECTS

Split and Settle | React,Vite,Supabase,CSS, JavaScript

- Full-stack expense splitting web app built with React and Vite, using Supabase for real-time database and user authentication.
- Users can create splits, add participants, track payments, and view full split history with a sleek dark themed UI.
- Built with React Router for navigation, Lucide React for icons, and plain CSS for a clean, lightweight frontend.

URL Shortner | HTML,Node+Express,JSON File

- Allows users to instantly shorten long URLs into clean, shareable links with a simple interface.
- Given a Click feature which shows how much time a URL has been clicked which is great for analytics
- Stores all URLs efficiently with a minimal database, making it easy to manage and retrieve links anytime.

Table Tennis Institute website | React,Vite,javaScript.CSS

- Designed and developed a fully functional Table Tennis institute website pages using React, deployed and actively used by a real institute.
- Built entirely on the frontend with React, demonstrating strong UI design and component-based development skills without any backend dependency.
- Delivers a clean, responsive and professional web experience for the institute, handling all content and navigation purely on the client side.
